Button Cheats

Cars Fly

UP, DOWN, L1, R1, L1, RIGHT, LEFT, L1, LEFT

But not like the old Dodo cheat. You have thrust while you're in the air, and can go faster than any airplane. Great for bookin' around the map from place to place.

Traffic is Fast Cars

UP, L1, R1, UP, RIGHT, UP, X, L2, X, L1

Sports cars, hot cars and rare cars. No more searching for a good ride when you need one.

Full Weapon Aiming While Driving

UP, UP, SQUARE, L2, RIGHT, X, R1, DOWN, R2, CIRCLE

This is so cool! You can aim and shoot anywhere with the right stick while you're driving, just like your homies do when you're doing a gang drive-by. CJ even hangs out the window to shoot over the roof. Use L2 and R2 to drive slowly. As a bonus, if you drive a motorcycle, you can't fall off!

Taxis Have Nitrous and L3 Bunny Hop

UP, X, TRIANGLE, X, TRIANGLE, X, SQUARE, R2, RIGHT

Without doing the Taxi missions.

Reduced Traffic

X, DOWN, UP, R2, DOWN, TRIANGLE, L1, TRIANGLE, LEFT

No peds and only an occasional car on the street. Parked cars still spawn. Great for cruising.

Orange Sky and Time Stopped at 21:00

LEFT, LEFT, L2, R1, RIGHT, SQUARE, SQUARE, L1, L2, X

Just like those early preview screens Rockstar released. It's 21:00 forever, so rob all the houses you want.

Gangs Rule the Streets

L2, UP, R1, R1, LEFT, R1, R1, R2, RIGHT, DOWN

Streets deserted except for gunmen fighting in the streets. No cops or regular citizens. No traffic except in gang territories.

Spawn Dozer

R2, L1, L1, RIGHT, RIGHT, UP, UP, X, L1, LEFT

Infinite Oxygen

DOWN, LEFT, L1, DOWN, DOWN, R2, DOWN, L2, DOWN

Mega Punch

UP, LEFT, X, TRIANGLE, R1, CIRCLE, CIRCLE, CIRCLE, L2

Punches send people flying into the next block. One hit kills. Watch out, peds have it too!

video: [MegaPunch.wmv](#)

Gang Members Everywhere

LEFT, RIGHT, RIGHT, RIGHT, LEFT, X, DOWN, UP, SQUARE, RIGHT

Funhouse Theme

TRIANGLE, TRIANGLE, L1, SQUARE, SQUARE, CIRCLE, SQUARE, DOWN, CIRCLE

Hotknives, baggage handlers, tugs, hotdogs, mr whoopees, pizzaboys, bf injections, caddys, quads, go karts, mowers, and banditos. Peds are food service workers and clowns. Get goofy outfit. Most vehicles have hydraulics, including police vehicles!

Sandstorm

UP, DOWN, L1, L1, L2, L2, L1, L2, R1, R2

Not the same as the Foggy Weather cheat. It's bright and windy. The wind and limited visibility makes flying airplanes and helicopters more challenging.

Traffic is Country Vehicles

L1, L1, R1, R1, L2, L1, R2, DOWN, LEFT, UP

Cars Float Away When Hit

SQUARE, R2, DOWN, DOWN, LEFT, DOWN, LEFT, LEFT, L2, X

Tap any vehicle with your car and it floats up. Can be used to get above the max height limit. If you like skydiving, tap a heli and get in before it gets away and you can go as high as you want.

Adrenaline Mode

X, X, SQUARE, R1, L1, X, DOWN, LEFT, X

Slower gameplay and greater strength. Punch harder, send people flying with melee weapons, and shove cars around with your bare hands.

Recruit Anyone (9mm)

DOWN, SQUARE, UP, R2, R2, UP, RIGHT, RIGHT, UP

Recruit anyone, up to 7 people. Recruits get a 9mm if they don't already have a weapon. To recruit someone who's attacking you, fire one bullet at them and immediately press UP.

Ninja Theme

X, X, DOWN, R2, L2, CIRCLE, R1, CIRCLE, SQUARE

Peds are all Asian dudes with katanas. Traffic is black PCJ-600's, and BF-400's, and FCR-900's. Even cop cars are all black. Get katana.

Lock Wanted Level

CIRCLE, RIGHT, CIRCLE, RIGHT, LEFT, SQUARE, TRIANGLE, UP

Wanted level never increases. Doesn't erase stars you already have.

Six Star Wanted Level

CIRCLE, RIGHT, CIRCLE, RIGHT, LEFT, SQUARE, X, DOWN

Slut Magnet

SQUARE, RIGHT, SQUARE, SQUARE, L2, X, TRIANGLE, X, TRIANGLE

You get the gimp suit and sluts chase you around with sex toys. Warning: may crash your game!

Never Get Hungry

SQUARE, L2, R1, TRIANGLE, UP, SQUARE, L2, UP, X

Always Midnight

SQUARE, L1, R1, RIGHT, X, UP, L1, LEFT, LEFT

Clock stopped at 00:00. Weird sudden weather changes. If you kill yourself, the time stays at 12:00.

Recruit Anyone (Rockets)

R2, R2, R2, X, L2, L1, R2, L1, DOWN, X

Recruits get rocket launchers if they don't already have weapons.

Do Nothing

SQUARE, SQUARE, R2, LEFT, UP, SQUARE, R2, X, X, X

This is a blank cheat that doesn't do anything. It cannot be disabled, so it will continue doing nothing until you reload or start a new game.

Hookers Pay You

RIGHT, L2, L2, DOWN, L2, UP, UP, L2, R2

Without doing the pimping missions.

Infinite Health

DOWN, X, RIGHT, LEFT, RIGHT, R1, RIGHT, DOWN, UP, TRIANGLE

Makes you mostly bulletproof and immune to fire, punches and melee attacks. You can still be hurt by explosions, falling, getting run over, and drowning.

More Speed (aka Flash Johnson)

Gives people and vehicles more speed. You can zip around on foot, and anything you drive is faster. Peds and some traffic are also faster.

Notes:

- Airplanes need the whole length of the runway to take off.
- At high speed, the game can't load scenery fast enough to keep up.
- If you sprint into a wall, you may break through it.
- Doesn't speed up time, just makes people and vehicles faster.
- Does not work with Freeze Everything or Moving Sidewalk.

Moonwalk World

Everyone is walking backwards, and you can drive backwards at full speed.

video: [BackwardsBike.wmv](#)

You have to get right next to the door of a car to enter it. When driving, you may want to hold L2+R2.

Does not work with Freeze Everything, Moving Sidewalk, or More Speed.

Freeze Everything

This freezes everyone but you. Peds walk in place, cars burn out and twist and turn trying to move but can't. Things you can do with this:

- Blow something up and freeze the debris in the air.
- Bail out of your vehicle while you're in the air and it'll stay up there.
- It's fun to piss off the cops and they have to stand in one place and try to shoot you from a distance.
- Launch a rocket and it stays right there in front of you. You can see rockets are backwards in GTA. Same for grenades and molotovs.
- Punch someone and watch them try to fight you, but they can't quite reach you.
- Could make race missions easier, if you really want to cheat.

video: [GoAheadAndArrestMeOfficer.wmv](#)

video: [LevitateAndLock1.wmv](#)

video: [LevitateAndLock2.wmv](#)

To steal a frozen car, you may have to rapidly tap triangle.

Put on the Aggressive Drivers (R2, CIRCLE, R1, L2, LEFT, R1, L1, R2, L2) cheat to make this affect all traffic.

Does not work with Moving Sidewalk or More Speed cheats. Do not enable more than one at a time.

Moving Sidewalk

Everybody is sliding north like they're on a moving sidewalk, including you. It'll push you right through a wall and into the abyss if you're on foot, so don't let it push you into a wall! For that reason, I don't recommend using speeds above running speed.

Put on the Aggressive Drivers (R2, CIRCLE, R1, L2, LEFT, R1, L1, R2, L2) cheat to make this affect all traffic.

Does not work with Freeze Everything or More Speed. Do not enable more than one at a time.

Teleport Anywhere

Go to the map and go to a location and press CIRCLE to set the red waypoint target marker. Get back to the game and press L3+R3 to teleport to that location. It can take a few seconds for everything to load in around you, and you may be falling until it loads the ground.

The game chooses the nearest suitable location, looking for nearby roads. If you're trying to go to the middle of nowhere, you may get dumped a ways away.

The cheat does not change your heaven number, so if you're indoors, you're going to end up on the ground in a ghost world. Unless you want that, make sure you're outdoors when you use it.

This cheat is capable of taking you to areas of the map that are not unlocked yet if you aren't that far in the story missions.

I have had a few times when it only transported me half way and I had to hold L3+R3 for a second to make it the whole way. I think the game sometimes needs time to finish loading the target area to see a place to put you.

Sideways Gravity

Use it to poltergeist the vehicles in the street, or face north and fly around without a jetpack. If the vehicles are sticking to the ground, you can usually get some to break loose by firing off a round with any gun to make people panic and become aggressive drivers.

Turn on the Aggressive Drivers cheat (R2, CIRCLE, R1, L2, LEFT, R1, L1, R2, L2) to make gravity affect most cars.

Does not work with Jetpack Unlimited Height or other grav mods enabled. Gravity effect is while you're holding a direction button, otherwise gravity is down.

Here's another variation of sideways gravity. Gravity stays on in the direction you set, you don't have to keep holding the button. Nice for driving on the sides of buildings.

Run/Drive/Fly Faster

Run, drive and fly three times faster! Of course, what good is a faster car if the traffic in front of you won't speed up? This cheat also makes all the traffic go faster. Basically, it speeds up gameplay whenever you're holding X for gas or thrust or sprint, or just standing there holding X to make time go faster. Great for impatient people. Use the Airplanes Easier Handling cheat to make airplanes more controllable at these speeds.

Negative Gravity

Hold L1 for negative gravity. Most cars and people stick to the ground, but cars you've touched are broken loose and will fly into the air and you can release it and let them fall to the ground. If you're using mega punch you can send people into the sky.

You can use this to force an airplane, helicoper, or flying car above the max height limit, but it becomes hard to control while above max height.

Do not use this with Jetpack Unlimited Height.

Make Airplanes Easier To Fly

They had the stick sensitivity set way too high. This reduces it and makes planes fly more like the Skimmer in Vice City.

Heavy Motorcycle Cheat

This cheat makes motorcycles super heavy so cars just bounce right off when you hit them. It's like what the Bigger Wheels cheat did to Comets and Banshees in Vice City when you entered it a bunch of times. It's great fun smashing through traffic and sending semis flying like ping pong balls!

Street Landscaper Cheat

This cheat moves all kinds of stuff from the countryside, desert, and ocean into the city where it doesn't belong. You can make a downtown Monster Truck obstacle course, a safari world, or turn everything into a western ghost town with sage brush and cactuses in the streets. The Reduced Traffic Cheat comes in handy.

video: [DowntownRocksAndTrees.wmv](#)

Select the enabler and select things to put on the streets. It's best not to select too many unrelated things or it turns into a hodgepodge. Don't forget to turn on the Enabler!

Not all streets load things. Different streets belong to different surface types, but most streets in cities are type 0. Country roads and some streets in downtown San Fierro are type 1.

You have to drive around for a while before things start to load, and wherever you start out, you have to drive away and come back before it'll load there. It's a lot of extra work for the software and it can't always keep up, so sometimes you just have to drive around and look for places where it's filling in.

Water Level Cheat

This cheat raises or lowers the water level everywhere in San Andreas. This was my favorite mod in Vice City and I was dying to try it in SA now that CJ can swim.

Where XXXX is the water level:

C1A0 = -20m

C120 = -10m

C100 = -8m

C000 = -2m

0000 = normal level

4000 = +2m

4080 = +4m

40C0 = +6m Just enough to fill the flood canals in LS

4100 = +8m

4120 = +10m 1ft water in Las Venturas

4130 = +11m

4140 = +12m

4150 = +13m 2ft water in Grove Street

4160 = +14m

4180 = +16m

4190 = +18m water level at rooftops in Grove Street

41A0 = +20m

41B0 = +22m

41C0 = +24m

41F0 = +30m

You can pick numbers in between the ones listed to make your own heights.

Las Venturas ground level is +9.7m
Grove Street ground level is +12.3m
